

New England

Exports to Canada include: Hybrid and monolithic integrated circuits.

Exports to the Netherlands include: Parts for Automated Data Processing machines; ink jet type printer units; vacuum molding machinery; parts of machines to filter liquids.

Exports to the United Kingdom include: Parts for ADP machines; parts of turbojet and turbopropeller aircraft engines; filtering, purifying equipment for liquids.

Exports to Mexico include: Toiletries.

* Based on exports through the port of Boston, 1995.

** Based on exports for 1994 through first half of 1996.
Source: U.S. Census Bureau, Foreign Trade Division; Statistics Canada; and Massachusetts Institute for Social and Economic Research.

Exports to Germany include:
Parts for ADP machines; parts
of printing machines; type-
setting equipment.

Exports to Japan include: Digital
processing units with storage; hard
magnetic disk drive units;
parts for ADP machines;
machinery for making
cartons, boxes.

Exports to Korea include: Filter-
ing, purifying equipment for liquids;
optical scanners; printing machinery;
industrial robots for multiple uses.

Exports to France include:
Multi-engine airplanes (mid-size);
turbofan airplanes.

Exports to Singapore include: Ion
implanters for semiconductors;
wafers for integrated circuits;
modems; radar apparatus.

Exports to Taiwan include:
Integrated circuits; unrecorded
magnetic disks; electric water
heaters.
