Overview

- ▶ Labor markets in New England remain tight - All six New England states have unemployment rates below pre-pandemic levels;
- ▶ Employers' difficulty finding workers has diminished in recent months, but remains at historically high levels;
- ▶ The pace of employment growth is slowing, but remains above long-run average rates;
- ▶ Headline inflation (CPI) has fallen sharply over last year, but core PCE inflation has come down more slowly and remains near 4 percent. Service sector price growth has been particularly stubborn;
- ▶ Growth in housing prices and rents has returned to long-run average rates, but the most notable feature of the housing market is the dramatic reduction in activity: fewer listings, sales, permits and starts;
- ▶ Consumer confidence is mixed, but business community outlook considerably less rosy;
- ▶ New England region faces a host of longer-term challenges
 - ▶ Labor force & population growth
 - ▶ Housing affordability

Longer Term Challenges for New England

- ▶ Slow Labor Force and Population Growth
- ▶ Housing Affordability

Recap

- ▶ Currently labor markets are tight, making it easy to find work, but difficult to hire;
- ▶ Employment now surpassed pre-pandemic levels; pace of job growth is slowing, but remains above long-run averages;
- ▶ Price pressures dissipating in many sectors, but core PCE inflation not coming down as quickly as CPI;
- ▶ Wage pressures have softened, but consumer price inflation fallen even faster resulting in real wage gains;
- ▶ Consumer confidence remains strong, but business confidence much weaker;
- ▶ Longer-term challenges remain.

Thank you.
