New England Community Development Advisory Council Meeting

Roundtable Discussion

1. Overall Economic Conditions (Lending/Non-Lending): What are your assessments of the overall economic conditions affecting low- and moderate-income (LMI) communities in your state/region?
 - Have there been recent policies, investments, or disinvestments that have disproportionately affected LMI families in your state?
 - What are your views on the current conditions of, and the outlook for, loan markets and financial markets?
 - In your opinion, have lending conditions for LMI consumers and communities improved or worsened?
 - Do you see any significant changes on the overall availability or terms of credit in the following areas, focusing on the impact to LMI consumers and communities: multifamily, affordable housing, home mortgage lending, small business, and consumer lending; home prices and rental markets?

2. Health and Economic Development: How has the Council observed healthcare facilities and/or institutions as a driver of economic activity in their communities? How has the role of investments in the social determinants of health improved the overall health, workforce, financial security, and community development activity in the Councils' regions?
