New England Community Development Advisory Council Meeting

Roundtable Discussion

1. **Overall Economic Conditions (Lending/Non Lending):** What are your assessments of the overall economic conditions affecting low- and moderate-income (LMI) communities in your state/region?
 - What are your views on the current conditions of, and the outlook for, loan markets and financial markets?
 - Have there been recent policies, investments, or disinvestments that have disproportionately affected LMI families in your state?
 - In your opinion, are lending conditions for LMI consumers and communities improved or worsened since the last meeting?
 - Have increased rent burdens contributed to homelessness or are there compounding contributors?

2. **CRA Modernization:** The Federal Reserve Board of Governors and the 12 Reserve Banks are interested to hear from stakeholders about revisions to CRA regulations—and to help identify potential solutions to concerns being raised about the current CRA regulations. The System is interested in getting the perspective of Stakeholders on four key areas: Assessment Areas, Performance Test Structure, Evaluating Performance and CRA in Underserved Communities. How would these changes affect the work you do in the communities you now serve?

3. **Additional Matters:** Have any other matters affecting low-income individuals and communities emerged from the work of the Council members that they want to present at this time?
