*For years, you've read our tables and charts....
Now you can create your own!*

<http://www.bos.frb.org/economic/nee>

- Generate tables and charts for the data series, states, or metropolitan areas you are most interested in... on the fly!
- Get your data in one of three ways:
 - The **Quick Summary** shows the most current data with prior and year-ago periods
 - The **Indicators Summary** shows the traditional tables from the printed *Indicators* publication, with charts
 - The **Custom Query** displays actual data or percent changes for the time periods you specify, with charts
- Easily export your data directly to a comma separated value (CSV) file

Please let us know what you think: bos.webmaster@bos.frb.org

Table continued

The industries for which employment data are reported on pages 5-8 represent the "supersectors" defined by the North American Industry Classification System (NAICS). The Bureau of Labor Statistics publishes seasonally adjusted employment for all six New England states except for two supersectors: Information and Natural Resources and Mining.

For data available for the New England states (both seasonally and not seasonally adjusted), visit <http://www.bos.frb.org/economic/nee/nee.htm>.

Employment by Industry, continued (thousands of jobs, seasonally adjusted)

Note: For each state, the table shows general revenues (including all taxes and fees) and the two historically largest sources of tax revenues. **These revenues are preliminary estimates generated by each of the New England states and are unaudited and subject to revision.** For all states, the "Income Tax" column reports revenues from the individual income tax. Rhode Island and Vermont refer to this category as collections from the "personal income tax." Maine uses the term "individual income tax" collections. Annual totals are for the July through June fiscal years. For example, FY2003 is the sum of collections for the 12 months from July 2002 through June 2003.

What's new at the New England Public Policy Center

The New England Public Policy Center is pleased to announce the release of several new reports. Copies of each report are available on the Center's web site: <http://www.bos.frb.org/economic/neppc/>

Reaching the goal: Expanding health insurance coverage in New England

by Alicia Sasser

This research report explores the progress being made in New England in expanding health insurance coverage. It sheds light on the potential impact of new initiatives currently pursued in Maine, Massachusetts, Rhode Island, and Vermont by looking to evidence on the efficacy of existing strategies that have expanded coverage more incrementally.

GASB 45 and other post employment benefits: The fog is clearing

by Steffanie Brady

This policy brief discusses GASB 45 - a new accounting rule for how governments should report health care and other non-pension benefits they promised to employees after retirement - and explores decisions governments will need to make with regard to funding this newly-reported liability.

The potential economic impact of increasing the minimum wage in New Hampshire

by Antoniya Owens

This discussion paper reviews the potential economic impact of increasing the minimum wage to \$7.25 in New Hampshire and finds that such an increase could result in job loss for about 2.5 percent of the state's minimum wage workers, but could also result in higher income for the minimum wage workers who remain employed.

Financing municipalities in New England: Revisiting the state-local relationship

**Wednesday, December 5, 2007
8 am – 12:15 pm**

Federal Reserve Bank of Boston

Municipalities in the New England region are experiencing difficulties in raising enough revenue to meet increasing demands for spending. To cope with this long-term fiscal challenge, state and local governments need to cooperate and explore various financing options for municipalities.

The New England Public Policy Center's third annual conference will investigate the fiscal relationship between New England's state and municipal governments and discuss potential strategies to finance municipalities. Specifically, speakers will examine the design of municipal aid formulas and address the potential impact of adopting local option sales taxes.

This half-day event is free and open to the public, but you must register in advance to attend. Registration closes on Friday, November 30.

Accountants and public finance officials attending the full conference are eligible for up to four continuing professional education credits. Required documentation will be provided at the end of the conference.
