**For years, you've read our tables and charts....
Now you can create your own!**

<http://www.bostonfed.org/economic/nee>

- Generate tables and charts for the data series, states, or metropolitan areas you are most interested in... on the fly!
- Get your data in one of three ways:
 - The **Quick Summary** shows the most current data with prior and year-ago periods
 - The **Indicators Summary** shows the traditional tables from the printed *Indicators* publication, with charts
 - The **Custom Query** displays actual data or percent changes for the time periods you specify, with charts
- Easily export your data directly to a comma separated value (CSV) file

Please let us know what you think: bos.webmaster@bos.frb.org

The industries for which employment data are reported on pages 5-8 represent the "supersectors" defined by the North American Industry Classification System (NAICS). For all New England states, the Bureau of Labor Statistics publishes seasonally adjusted employment data for all supersectors, with the exceptions of Information (seasonally adjusted data available for Connecticut, Massachusetts, and New Hampshire only) and Natural Resources and Mining (data available for Maine only). Not seasonally adjusted data for all supersectors can be found on the Indicators web site: <http://www.bos.frb.org/economic/nee/nee.html>.

Indicators New England Economic

Survey

**Please take a moment to complete a survey regarding how you use
New England Economic Indicators.**

New England Economic Indicators is produced by the Federal Reserve Bank of Boston's New England Public Policy Center (NEPPC). The NEPPC promotes better public policy in New England by conducting and disseminating objective, high-quality research and analysis of strategically identified regional economic and policy issues and, when appropriate, work with regional and Bank partners to advance identified policy options.

Indicators New England Economic

Survey

New England Economic Indicators Survey

The Federal Reserve Bank of Boston publishes New England Economic Indicators, a quarterly publication that provides current and historical economic data for the six states in the first Federal Reserve District (Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont), large metropolitan areas in the region, New England as a whole, and the United States. The Boston Fed is interested in improving how we share these data with the public. Thank you for helping us to do this and improve the Indicators publication by completing this survey.

*We plan to share a summary of the survey results with Indicators users later in 2011. We appreciate your responses by **April 30, 2011.***

*An online version of the survey is available at our website:
<http://www.bostonfed.org/economic/nee/index.htm>*

*You may also fax the completed survey to: (617) 619-8357 or email a scanned copy to:
neppc@bos.frb.org*

New England Economic Indicators Survey

1) In which medium do you primarily review New England Economic Indicators?

(please check one box)

- Mostly in print
- About equally in print and online
- Mostly online

2) How extensively do you read New England Economic Indicators?

(please check one box)

- Read it from cover to cover
- Scan the entire issue and review selected date series and summaries
- Scan the table of contents and read selected summaries/data
- Scan selected summaries/data, more or less at random
- Scan the table of contents only.

3) How do you use New England Economic Indicators?

(Please check all that apply)

- To track the New England economy
- For select data series summaries
- To learn of New England Public Policy Center and Federal Reserve Bank of Boston publications and events
- Indicator articles and annual state economic performance overviews.
- Other (please specify)

4) Would you prefer to receive New England Economic Indicators:

(Please check one box)

- Once every 3 months (as currently)?
- Once every 6 months?
- Once every year?

5) How valuable do you find New England Economic Indicators? (Please circle)

Extremely Very Moderately Slightly Not at all

6) What changes would increase the value of New England Economic Indicators?

7) If you would like to subscribe to E-Mail Alerts, to be notified when a new issue of New England Economic Indicators is available, as well as other Federal Reserve Bank of Boston research, please provide your email below:

E-Mail: _____

8) What sector of employment do you best fit into?

(Please check one)

- Academic
- Business
- Government
- Media
- Researcher
- Non-Profit
- Student
- Volunteer
- Other

9) Would you like to continue to receive New England Economic Indicators in the mail?

- Yes
- No

10) Please enter your name, address, and subscription label code

Name: _____

Address: _____

Label Code: _____

Note: For each state, the table shows general revenues (including all taxes and fees) and the two historically largest sources of tax revenues. **These revenues are preliminary estimates generated by each of the New England states and are unaudited and subject to revision.** For all states, the "Income Tax" column reports revenues from the individual income tax. Rhode Island and Vermont refer to this category as collections from the personal income tax. Maine uses the term "individual income tax" collections. Annual totals are for the July through June fiscal years. For example, FY2003 is the sum of collections for the 12 months from July 2002 through June 2003.

Sources: Connecticut Department of Revenue Services, Maine Office of the State Controller, Massachusetts Department of Revenue, New Hampshire Department of Administrative Services, Rhode Island State Budget Office, and the State of Vermont Joint Fiscal Office.

Source: American Bankruptcy Institute.

Total bankruptcies represent the number of business filings (Chapters 7, 11, 12, and 13) plus the number of consumer or personal filings (Chapters 7, 11, and 13). The American Bankruptcy Institute compiles and distributes these data, which are initially released by the Administrative Office of the U.S. Courts.

Why is this issue for both Q1 2011 and Q4 2010?

In an effort to provide you with more timely data, we are changing the production schedule of New England Economic Indicators. Previously New England Economic Indicators was produced when all data for a given quarter were available. As a result, much of the data were outdated when the publication was released.

Starting with the Q2 2011 edition, New England Economic Indicators will contain all data available as of the end of the quarter. For example, the Q2 2011 edition of Indicators will contain all data available as of June 30, 2011. This edition, which contains data for the most recent two quarters (Q4 2010 and Q1 2011) was done to transition to this new production schedule. We apologize for any inconvenience this may have caused and hope you enjoy the more timely data in the publication.
