Small Business Credit Survey

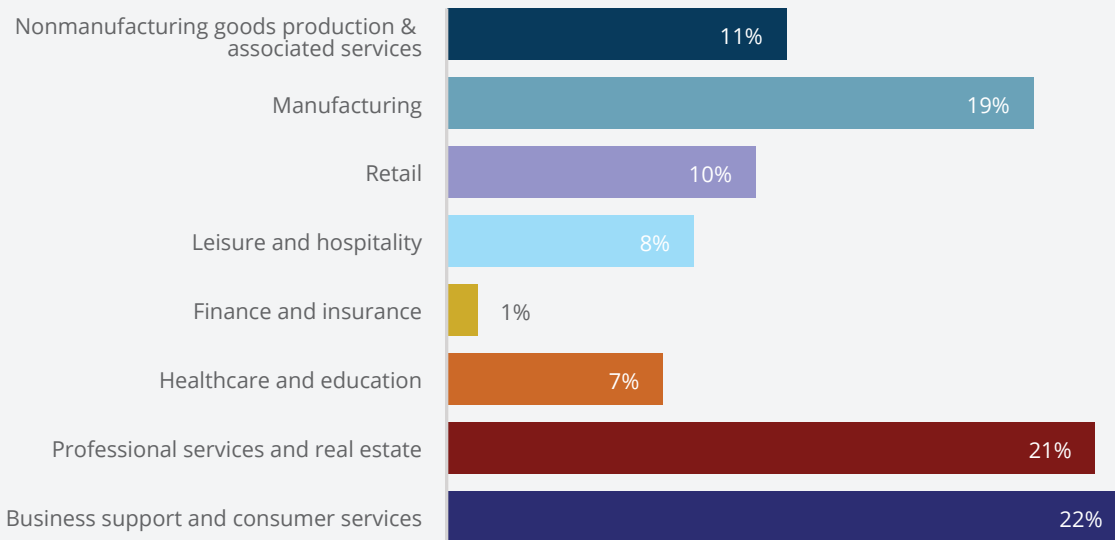

A New England Perspective

Connecticut

The Small Business Credit Survey (SBCS) is designed to provide timely information on small business financing needs, decisions, and outcomes to policy makers, researchers, and service providers. Intelligence on small firms' financing needs and gaps is fundamental to understanding and bolstering the sector's health and growth. The information contained in this report is from employer firms who responded to the survey and indicated that their firm was headquartered in Connecticut and survey responses are weighted to represent the distribution of firms in the state the business operates in.

Industry^{1,2}

(% of employer firms)

Source: Small Business Credit Survey | Report on Employer Firms, Federal Reserve Banks

1 SBCS responses throughout the report are weighted using Census data to represent the US small business population on the following dimensions: firm age, size, industry, and geography.

2 Firm industry is classified based on the description of what the business does, as provided by the survey participant.
