

Board of Governors of the Federal Reserve System

Annual Report of Holding Companies—FR Y-6

Report at the close of business as of the end of fiscal year

This report is required by law: Section 5(c)(1) of the Bank Holding Company Act (12 U.S.C. § 1844(c)(1)); section 10(b)(2) of the Home Owners' Loan Act (12 U.S.C. § 1467a(b)(2)); sections 102(a)(1), 165, and 618 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. §§ 5311(a)(1), 5365, and 1850a(c)(1)); and sections 8(a) and 13(a) of the International Banking Act of 1978 (12 U.S.C. §§ 3106(a) and 3108(a)). Return to the appropriate Federal Reserve Bank the original and the number of copies specified.

This report form is to be filed by all top-tier bank holding companies, top-tier savings and loan holding companies, and U.S. intermediate holding companies organized under U.S. law, and by any foreign banking organization that does not meet the requirements of and is not treated as a qualifying foreign banking organization under Section 211.23 of Regulation K (12 C.F.R. § 211.23). (See page one of the general instructions for more detail of who must file.) The Federal Reserve may not conduct or sponsor, and an organization (or a person) is not required to respond to, an information collection unless it displays a currently valid OMB control number.

NOTE: The *Annual Report of Holding Companies* must be signed by one director of the top-tier holding company. This individual should also be a senior official of the top-tier holding company. In the event that the top-tier holding company does not have an individual who is a senior official and is also a director, the chairman of the board must sign the report. If the holding company is an ESOP/ESOT formed as a corporation or is an LLC, see the General Instructions for the authorized individual who must sign the report.

In accordance with the General Instructions for this report (check only one),

1. a letter justifying this request is being provided along with the report
2. a letter justifying this request has been provided separately ...

NOTE: Information for which confidential treatment is being requested must be provided separately and labeled as "confidential."

Report Item 1: Annual Report to Shareholders

For holding companies not registered with the SEC, **indicate status of Annual Report to Shareholders:**

- is included with the FR Y-6 report
 will be sent under separate cover
 is not prepared

Checklist

The checklist below is provided to assist the holding company in filing all the necessary responses and verifying changes from the prior year to the various report items. The completed checklist should be submitted with the report. Please see section A of the General Instructions for additional guidance.

Verification of Changes

All Reporters must respond to the following questions by checking the Yes or No box below, as appropriate.

Did the holding company have changes to any reportable FR Y-6 items (2a, 2b, 3, or 4) from the prior year?

- Yes No

If checked Yes, complete the remaining checklist for Report Items 2a, 2b, 3, and 4. For each Report Item, indicate whether there are changes from the prior year by checking Yes or No below. See section A of the General Instructions for additional information.

Report Item 2a: Organization Chart

- Yes No

If checked Yes, the Reporter must submit the organization chart as specified in Report Item 2.a instructions.

Report Item 2b: Domestic Branch Listing

- Yes No

If checked Yes, the Reporter must submit the domestic branch listing as specified in Report Item 2.b instructions.

Report Item 3: Securities Holders

- Yes No

If checked Yes, the Reporter must submit the information as specified in Report Item 3 instructions.

Report Item 4: Insiders

- Yes No

If checked Yes, the Reporter must submit the information as specified in Report Item 4 instructions.

For Use By Tiered Holding Companies

Top-tiered holding companies must list the names, mailing address, and physical locations of each of their subsidiary holding companies below.

Independent Auditor's Report

Report on the Audit of the Financial Statements

To the Audit Committee of BankFive, MHC and Subsidiary:

Opinion

We have audited the consolidated financial statements of BankFive, MHC and Subsidiary (the Company), which comprise the consolidated balance sheets as of December 31, 2022 and 2021, and the related consolidated statements of net income, comprehensive income (loss), changes in retained earnings and cash flows for the years then ended, and the related notes to the consolidated financial statements (collectively, the financial statements).

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2022 and 2021, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with auditing standards generally accepted in the United States of America (GAAS), the Company's internal control over financial reporting as of December 31, 2022, based on criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission in 2013, and our report dated March 23, 2023 expressed an unmodified opinion on the effectiveness of the Company's internal control over financial reporting.

Basis for Opinion

We conducted our audits in accordance with GAAS. Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair

presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a period of within one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Wolff + Company, P.C.

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Consolidation

The consolidated financial statements include the accounts of BankFive, MHC, its wholly-owned subsidiary, BankFive Corporation, and BankFive Corporation's wholly-owned subsidiary, Fall River Five Cents Savings Bank (the "Bank") (collectively, the "Company"). The Bank has wholly-owned subsidiaries, North Main Securities Corporation and Hills and Mills Securities Corporation, which were established to buy, hold, and sell investment securities. The Bank's other wholly-owned subsidiaries, Spindle City Realty, LLC and Taunton River Realty, LLC, were established to hold and maintain foreclosed real estate. All significant intercompany balances and transactions have been eliminated in consolidation.

Nature of Operations

The Company provides a variety of financial services to individuals and small businesses through its offices in Southeastern, Massachusetts and Rhode Island. Its primary deposit products are savings and term certificate accounts and its primary lending products are residential and commercial mortgage loans and commercial loans.

Use of Estimates

In preparing the financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and income and expense during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to change in the near-term relate to the determination of the allowance for loan losses, the defined benefit pension liability, valuation of mortgage banking derivatives and the realizability of deferred tax assets.

Reclassification

Certain amounts in the 2021 consolidated financial statements have been reclassified to conform to the 2022 presentation.

Cash and Cash Equivalents

For purposes of the consolidated statements of cash flows, cash and cash equivalents include cash on hand, amounts due from banks and interest-bearing deposits, all of which have original maturities less than ninety days.

Restricted Cash

The Company maintains cash collateral balances which have been pledged to derivative counterparties

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

and are legally restricted as to use.

Securities

Debt securities that management has the positive intent and ability to hold to maturity are classified as “held to maturity” and recorded at amortized cost. Debt securities not classified as held to maturity are classified as “available for sale” and recorded at fair value, with unrealized gains and losses excluded from earnings and reported in other comprehensive income/loss. Marketable equity securities are recorded at fair value, with unrealized gains and losses included in earnings.

Gains and losses on the sale of securities are recorded on the trade date and are determined using the specific identification method. Purchase discounts and non-callable security premiums are recognized in interest income using the interest method over the contractual terms of the securities and callable purchase premiums are amortized to the earliest call date.

Each reporting period, the Company evaluates all debt securities with a decline in fair value below the amortized cost of the investment to determine whether or not the impairment is deemed to be other-than-temporary (“OTTI”). OTTI is required to be recognized (1) if the Company intends to sell the security; (2) if it is “more likely than not” that the Company will be required to sell the security before recovery of its amortized cost basis; or (3) if the present value of expected cash flows is not sufficient to recover the entire amortized cost basis. For all impaired securities that the Company intends to sell, or more likely than not will be required to sell, the full amount of the depreciation is recognized as OTTI through earnings. Credit-related OTTI for all other impaired securities is recognized through earnings. Non-credit related OTTI for such securities is recognized in other comprehensive income/loss, net of applicable taxes.

Fair Value Hierarchy

The Company groups its assets measured at fair value in three levels, based on the markets in which the assets are traded and the reliability of the assumptions used to determine fair value.

Level 1 – Valuation is based on quoted prices in active markets for identical assets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets.

Level 2 – Valuation is based on observable inputs other than Level 1 prices, such as quoted prices for similar assets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets.

Level 3 – Valuation is based on unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets. Level 3 assets include assets whose value is determined using unobservable inputs to pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

BankFive, MHC and Subsidiary

Notes to Consolidated Financial Statements

Years Ended December 31, 2022 and 2021

Loans Held for Sale

Loans originated and intended for sale in the secondary market are carried at the lower of cost or estimated fair value in the aggregate. Net unrealized losses, if any, are recognized through a valuation allowance by charges to income.

Loans

The Company grants mortgage, commercial, and consumer loans to customers. The Company's lending activities are conducted principally in southeastern Massachusetts and Rhode Island. The ability of the Company's debtors to honor their contracts is dependent upon the real estate and general economic conditions in this area.

Loans that management has the intent and ability to hold for the foreseeable future or until maturity or pay-off are reported at their outstanding unpaid principal balances adjusted for charge-offs, the allowance for loan losses, any deferred fees or costs on originated loans, and premiums or discounts on purchased loans. Interest income is accrued on the unpaid principal balance. Loan origination fees, certain direct origination costs and purchase premiums and discounts are deferred and amortized to interest income using the interest method.

Accrual of interest on loans is discontinued when, in the judgment of management, the collectability of the principal or interest becomes doubtful. When a loan is placed on nonaccrual status, all interest previously accrued is reversed against current period interest income. Past due status is based on the contractual terms of the loan. The interest on these loans is accounted for on the cash-basis or cost-recovery method until qualifying for return to accrual. Loans are returned to accrual status when all principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Allowance for Loan Losses

The adequacy of the allowance for loan losses is evaluated on a regular basis by management and represents an amount which is available to absorb losses on existing loans that may become uncollectible and is established through a provision for losses charged to earnings. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance. The allowance for loan losses consists of general, specific, and unallocated components, as further described below.

General component

The general component of the allowance for loan losses is based on historical loss experience adjusted for qualitative factors stratified by the following loan segments: residential real estate, commercial real estate, construction, commercial, and consumer.

BankFive, MHC and Subsidiary

Notes to Consolidated Financial Statements

Years Ended December 31, 2022 and 2021

Management uses a rolling average of historical losses based on a time frame appropriate to capture relevant loss data for each loan segment. This historical loss factor is adjusted for the following qualitative factors: national and local economic trends and conditions; changes in the nature, volume and terms of loans; changes in experience, ability and depth of lending management; changes in loan underwriting policies and procedures; banking industry conditions; changes in credit concentrations; changes in loan review system and oversight; levels/trends in delinquencies and changes in collateral value. There were no changes in the Company's policies or methodology pertaining to the general component of the allowance for loan losses during 2022 or 2021.

The qualitative factors are determined based on the various risk characteristics of each loan segment. Risk characteristics relevant to each portfolio segment are as follows:

Residential real estate (including equity lines-of-credit and second mortgages classes) – The Company generally does not originate loans with a loan-to-value ratio greater than 95 percent and does not grant loans that would be classified as subprime upon origination. Loans with loan-to-value ratios in excess of 80 percent generally require private mortgage insurance. The Company generally has 1st or 2nd liens on property securing equity lines-of-credit. Substantially all loans in this segment are collateralized by owner-occupied residential real estate and repayment is dependent on the credit quality of the individual borrowers. The overall health of the economy, including unemployment rates and housing prices, will have an effect on the credit quality in this segment.

Commercial real estate – Loans in this segment are secured by both owner-occupied and non-owner occupied properties. The underlying cash flows generated by the business enterprises occupying the real estate may be adversely impacted by an economic downturn, which will have an effect on the credit quality in this segment. The underlying cash flows generated by the properties are similarly impacted by economic events. As appropriate, management periodically obtains financial statements of the business enterprises or rent rolls and monitors the cash flows and underlying real estate values of these loans.

Construction – Loans in this segment are primarily real estate development loans that may be considered speculative in nature since the repayment of the loans is usually derived from the sale of the property once it is developed. Credit risk is affected by cost overruns, time to sell at an adequate price and general market conditions.

Commercial – Loans in this segment are made to businesses and are generally secured by assets of the business and guaranteed by the business owners. Repayment is expected from the cash flows of the operating businesses or the net worth and other income of the guarantors. The local economy and the level of business revenues may have an effect on the credit quality in this segment.

Consumer – The Company offers a variety of consumer and other loans, generally secured by personal property or savings. Repayment is dependent on the income and net worth of the individual borrowers.

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

Allocated component

The allocated component relates to loans that are classified as impaired. Based on internal credit ratings, residential real estate loans, commercial real estate loans, construction loans and commercial loans are evaluated for impairment on a loan-by-loan basis. Impairment is measured by either the present value of expected future cash flows discounted at the loan's existing interest rate or the fair value of the collateral if the loan is collateral dependent.

An allowance is established when the discounted cash flows (or collateral value) of the impaired loan is lower than the carrying value of that loan. Large groups of smaller balance homogeneous loans are collectively evaluated for impairment. Accordingly, the Company does not separately identify individual consumer loans for impairment disclosures, unless such loans are subject to a troubled debt restructuring agreement.

A loan is considered impaired when, based on current information and events, it is probable that a creditor will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Factors considered by management in determining impairment include payment status, collateral value, and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed.

The Company periodically may agree to modify the contractual terms of loans. When a loan is modified and a concession is made to a borrower experiencing financial difficulty, the modification is considered a troubled debt restructuring ("TDR"). All TDRs are initially classified as impaired.

Unallocated component

An unallocated component is maintained to cover uncertainties that could affect management's estimate of probable losses. The unallocated component of the allowance reflects the margin of imprecision inherent in the underlying assumptions used in the methodologies for estimating allocated and general reserves in the portfolio. Management believes that the allowance for loan losses is adequate. While management uses available information to recognize losses on loans, future additions to the allowance may be necessary.

Derivative Financial Instruments Designated as Hedging Instruments

Interest rate swap instruments

For asset/liability management purposes, the Company uses interest rate swap agreements to hedge various

BankFive, MHC and Subsidiary

Notes to Consolidated Financial Statements

Years Ended December 31, 2022 and 2021

exposures or to modify interest rate characteristics of various balance sheet accounts. Interest rate swaps are contracts in which a series of interest rate flows are exchanged over a prescribed period. The notional amount on which the interest payments are based is not exchanged. These swap agreements are derivative instruments and generally convert a portion of the Company's variable-rate debt to a fixed rate (cash flow hedge).

For cash flow hedges, the net settlement (upon close-out or termination) that offsets changes in the value of the hedged debt is deferred and amortized into net interest income over the life of the hedged debt. For fair value hedges, the net settlement (upon close-out or termination) that offsets changes in the value of the loans adjusts the basis of the loans and is deferred and amortized to loan interest income over the life of the loans. The portion, if any, of the net settlement amount that did not offset changes in the value of the hedged asset or liability is recognized immediately in non-interest income.

Interest rate derivative financial instruments receive hedge accounting treatment only if they are designated as a hedge and are expected to be, and are, effective in substantially reducing interest rate risk arising from the assets and liabilities identified as exposing the Company to risk. Those derivative financial instruments that do not meet specified hedging criteria would be recorded at fair value with changes in fair value recorded in income.

Cash flows resulting from the derivative financial instruments that are accounted for as hedges of assets and liabilities are classified in the cash flow statement in the same category as the cash flows of the items being hedged.

Derivative Financial Instruments Not Designated as Hedging Instruments

Loan Level Interest Rate Swaps

The Company enters into interest rate swap agreements with commercial loan customers to synthetically convert the customer's loan from a variable rate to a fixed rate. Terms of these "back-to-back" offsetting swap agreements require the Company to pay interest to the customer at a floating rate on the notional amount and receive interest from the customer at a fixed rate on the same notional amount.

Concurrently, the Company enters into an offsetting swap with a financial institution counterparty and pays the counterparty interest at the same fixed rate and notional amount. Accordingly, changes in the fair value of these interest rate swaps, which offset each other, are recognized in current earnings within other non-interest income. The swaps are reported at fair value within other assets and other liabilities in the consolidated balance sheet. Any net gain or loss resulting from changes in fair value is recognized in other non-interest income. These loan level swaps qualify as derivatives but are not designated or accounted for as hedging instruments.

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

Mortgage Banking Derivatives

Derivative Loan Commitments

Residential real estate loan commitments are referred to as derivative loan commitments if the loan that will result from exercise of the commitment will be held for sale upon funding. Loan commitments that are derivatives are recognized at fair value on the consolidated balance sheet in other assets and other liabilities with changes in their fair values recorded in mortgage banking gains, net.

Forward Loan Sale Commitments

To protect against the price risk inherent in derivative loan commitments, the Company utilizes both “mandatory delivery” and “best efforts” forward loan sale commitments to mitigate the risk of potential decrease in the values of loans that would result from the exercise of the derivative loan commitments. Forward sale commitments are recognized at fair value on the consolidated balance sheet in other assets and other liabilities with changes in their fair values recorded in mortgage banking gains, net.

Restricted Stock

Federal Home Loan Bank Stock

The Company, as a member of the FHLB system, is required to maintain an investment in capital stock of the FHLB. FHLB stock amounted to \$11,673,000 and \$4,077,000 at December 31, 2022 and 2021, respectively. Based on the redemption provisions of the FHLB, the stock has no quoted market value and is carried at cost. At its discretion, the FHLB may declare dividends on the stock. The Company reviews for impairment based on the ultimate recoverability of the cost basis in the FHLB stock. As of December 31, 2022 and 2021, no impairment has been recognized.

Federal Reserve Bank Stock

The Company, as a member of the Federal Reserve System is required to hold Federal Reserve Bank (“FRB”) stock equal to 0.06% of capital. One-half of the Bank’s subscription is paid to the Federal Reserve Bank of Boston and the remaining half is subject to call when deemed necessary by the Board of Governors of the Federal Reserve system. FRB stock amounted to \$675,000 and \$3,061,000 at December 31, 2022 and 2021, respectively.

Other Restricted Stock

The Company is required to maintain an investment in capital stock in connection with agreements in place with two third party vendors. This stock amounted to \$220,000 and \$320,000 at December 31, 2022 and 2021, respectively. The stock has no quoted market value and is carried at cost. The Company reviews for impairment based on the ultimate recoverability of the cost basis in the stock. As of December 31, 2022 and 2021, no impairment has been recognized.

BankFive, MHC and Subsidiary

Notes to Consolidated Financial Statements

Years Ended December 31, 2022 and 2021

In 2022, an investment in one third party vendor was sold and the Company received proceeds from the sale in the amount of \$6,206,000 and recognized a gain on the sale in the amount of \$6,106,000.

Leases

The Company determines if an arrangement is a lease at inception. Operating lease right-of-use (“ROU”) assets are included in other assets and operating lease liabilities are included in accrued expenses and other liabilities in the consolidated balance sheets. The Company does not have any finance leases.

ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As most of our leases do not provide an implicit rate, we use our incremental borrowing rate, which is generally the Federal Home Loan Bank classic advance rate, based on the information available at commencement date in determining the present value of lease payments. We use the implicit rate when readily determinable. The operating lease ROU asset is net of lease incentives. Our lease terms may include options to extend or terminate the lease when it is reasonably certain that we will exercise that option. For operating leases, lease expense is recognized on a straight-line basis over the lease term.

We have lease agreements with lease and non-lease components, which are generally accounted for separately. We have not elected the practical expedient to account for lease and non-lease components as one lease component.

The Company has elected to adopt the lease guidance retrospectively at the beginning of 2022. The adoption did not result in any cumulative-effect adjustment to beginning retained earnings. The Company has elected certain practical expedients upon adoption and therefore has not reassessed whether any expired or existing contracts contain leases, has not reassessed the lease classification for any expired or existing leases and has not reassessed initial direct costs for any existing leases.

Premises and Equipment

Land is stated at cost. Buildings, leasehold improvements and equipment are stated at cost, net of accumulated depreciation and amortization. Depreciation and amortization is computed using the straight-line method based on the estimated useful lives of the respective assets or the terms of the respective leases, if shorter. Expected lease terms include lease option periods to the extent that the exercise of such options is reasonably assured.

Goodwill

Goodwill is not amortized, but is evaluated for impairment on an annual basis. As of December 31, 2022 and 2021, the Company has not recorded any impairment loss on its goodwill.

BankFive, MHC and Subsidiary

Notes to Consolidated Financial Statements

Years Ended December 31, 2022 and 2021

Bank-owned Life Insurance

Bank-owned life insurance policies are reflected on the consolidated balance sheets at cash surrender value. Changes in the net cash surrender value of the policies, as well as insurance proceeds received in excess of cash surrender value, are reflected in non-interest income on the consolidated statements of net income and are not subject to income taxes.

Employee Retention Credit

The Employee Retention Credit (ERC) program was established by the Coronavirus Aid, Relief, and Economic Security (CARES) Act, in March 2020 to help businesses retain employees. Eligible businesses could receive a quarterly refundable payroll tax credit. ERCs are claimed primarily on federal payroll tax forms. During 2022, the Company determined that it qualified for the Employee Retention Credit and has filed for a credit against payroll taxes previously paid of \$2,524,000. The Company is accounting for this analogous to International Accounting Standard No. 20, Accounting for Government Grants and Disclosure of Government Assistance. As there is reasonable assurance that the Company has complied with all conditions attached to the program, a \$2,524,000 receivable has been recorded in other assets with an offsetting credit to payroll tax expense, included in salaries and employee benefits expense.

Foreclosed Real Estate

Real estate acquired through, or in lieu of, loan foreclosures are held for sale and are initially recorded at fair value at the date of foreclosure, establishing a new cost basis. Subsequent to foreclosure, valuations are periodically performed by management and the real estate is carried at the lower of carrying amount or fair value less cost to sell. Revenue and expenses from operations, any direct write-downs, and gains or losses on sales are included in other non-interest expense. There was no foreclosed real estate at December 31, 2022 and 2021.

Transfers of Financial Assets

Transfers of an entire financial asset, a group of entire financial assets, or a participating interest in an entire financial asset are accounted for as sales when control over the assets has been surrendered. Control over transferred assets is deemed to be surrendered when (1) the assets have been isolated from the Company, (2) the transferee obtains the right to pledge or exchange the transferred assets, and (3) the Company does not maintain effective control over the transferred assets.

During the normal course of business, the Company may transfer a portion of a loan. In order to be eligible for sales treatment, the transfer of the portion of the loan must meet the criteria of a participating interest. If it does not meet the criteria of a participating interest, the transfer must be accounted for as a secured borrowing. In order to meet the criteria for a participating interest, all cash flows from the loan must be divided proportionately, the rights of each loan holder must have the same priority, the loan holders must have no recourse to the transferor other than standard representations and

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

warranties and no loan holder has the right to pledge or exchange the entire loan.

Defined Benefit Pension Plan

The compensation cost of an employee's pension benefit is recognized on the projected unit credit method over the employee's approximate service period. The aggregate cost method is utilized for funding purposes.

The Company accounts for its defined benefit pension plan using an actuarial model that allocates pension costs over the service period of employees in the plan. The Company accounts for the over-funded or under-funded status of its defined benefit plan as an asset or liability in its consolidated balance sheets and recognizes changes in the funded status in the year in which the changes occur through other comprehensive income/loss.

Effective July 1, 2022, the Qualified Defined Benefit Pension Plan sponsored by the Company was amended to convert the plans from a traditional final average earnings plan design to a cash balance plan design. Benefits earned under the final average earnings plan design were frozen at June 30, 2022. Starting July 1, 2022, future benefits are earned under the cash balance plan design. Under the cash balance plan design, hypothetical account balances are established for each participant and pension benefits are generally stated as the lump sum amount in that hypothetical account. Contribution credits equal to a percentage of a participant's annual compensation (if the participant works at least 1,000 hours during the year) and interest credits equal to the greater of the 30-Year Treasury rate for September preceding the current plan year or 4.0% are added to a participant's account each year.

Advertising

Advertising costs are expensed as incurred.

Income Taxes

Deferred income tax assets and liabilities are determined using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is determined based on the tax effects of the temporary differences between the book and tax bases of the various balance sheet assets and liabilities and gives current recognition to changes in tax rates and laws in the period of enactment. A valuation allowance is established against deferred tax assets when, based upon the available evidence including historical and projected taxable income, it is more likely than not that some or all of the deferred tax assets will not be realized.

The Company does not have any uncertain tax positions at December 31, 2022 which require accrual or disclosure. The Company records interest and penalties as part of income tax expense. No interest or penalties were recorded for the years ended December 31, 2022 and 2021.

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

Comprehensive Income/Loss

Accounting principles generally require that recognized revenue, expenses, gains and losses be included in net income. Although certain changes in assets and liabilities are reported as a separate component of the retained earnings section of the balance sheet, such items, along with net income, are components of comprehensive income/loss.

The components of accumulated other comprehensive loss, included in retained earnings, are as follows:

Recent Accounting Pronouncements

In June 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-13, Financial Instruments — Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. Among other things, these amendments require the measurement of all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. This Update is effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. The Company determined that a \$983,000 adjustment to decrease the allowance for credit losses and increase retained earnings, net of income taxes, was required upon adoption on January 1, 2023 (unaudited).

At December 31, 2022, 319 securities have unrealized losses with aggregate depreciation of 18.45% from the Company's amortized cost basis. The unrealized losses on these securities were primarily caused by changes in interest rates.

It is expected that the securities would not be settled at a price less than the par value of the investment. Because the decline in market value is attributable to changes in interest rates and not to credit quality, and because the Company does not intend to sell the investments and it is more likely than not that the Company will not be required to sell the investments before recovery of their amortized cost bases, which may be maturity, the Company does not consider these investments to be other-than-temporarily impaired at December 31, 2022.

Marketable Equity Securities

Marketable equity securities consist of common stocks. The Company held marketable equity securities with aggregate fair value of \$863,000 and \$1,009,000 at December 31, 2022 and 2021, respectively. During the year ended December 31, 2022 and 2021, net unrealized gains on marketable equity securities still held was \$362,000 and \$509,000, respectively.

There were no troubled debt restructurings for the years ended December 31, 2022 and 2021.

Credit Quality Information

The Company utilizes a ten grade internal loan rating system for residential real estate, commercial real estate, construction, and commercial loans as follows:

Loans rated in the first six grades (1-6) are considered “pass” rated loans with low to average risk. Residential loans are generally considered pass rated credits unless the relationship is part of a commercial credit that has a rating below pass or a loan is delinquent greater than ninety days.

Loans rated 7 are considered “special mention.” These loans are starting to show signs of potential weakness and are being closely monitored by management.

Loans rated 8 are considered “substandard.” Generally, a loan is considered substandard if it is inadequately protected by the current net worth and paying capacity of the obligors and/or the collateral pledged. There is a distinct possibility that the Company will sustain some loss if the weakness is not corrected.

Loans rated 9 are considered “doubtful.” Loans classified as doubtful have all the weaknesses inherent in those classified substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of existing facts, conditions, and values, highly questionable.

Loans rated 10 are considered uncollectible (“loss”) and of such little value that their continuance as loans is not warranted.

The Company formally reviews all “pass” related relationships on an 18-24 month schedule. For relationships rated “special mention” or worse, formal reviews are conducted at least annually, or more often as needed. The Company also engages a third party to review a portion of the commercial real estate, construction, and commercial portfolios. The results of these reviews are incorporated as part of the Company’s overall review process.

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

The following tables present the Company's loans by risk rating:

	Residential	Commercial		Commercial	Total
		Real Estate	Construction		
	(In thousands)				
<u>December 31, 2022</u>					
Loans rated 1 - 6	\$ 513,696	\$ 538,258	\$ 17,750	\$ 169,469	\$ 1,239,173
Loans rated 7	361	-	-	300	661
Loans rated 8	-	1,320	-	73	1,393
Total	\$ 514,057	\$ 539,578	\$ 17,750	\$ 169,842	\$ 1,241,227
<u>December 31, 2021</u>					
Loans rated 1 - 6	\$ 345,747	\$ 445,762	\$ 13,579	\$ 156,888	\$ 961,976
Loans rated 7	509	1,067	-	92	1,668
Loans rated 8	137	708	-	72	917
Total	\$ 346,393	\$ 447,537	\$ 13,579	\$ 157,052	\$ 964,561

Credit quality for equity lines-of-credit, second mortgages and consumer loans are determined by monitoring loan payment history and on-going communication with customers.

5. LOAN SERVICING

Loans serviced for others are not included in the accompanying consolidated balance sheets. The unpaid principal balances of residential mortgage loans serviced for others were \$652,840,000 and \$607,755,000 at December 31, 2022 and 2021, respectively, which includes \$53,384,000 and \$51,895,000 of loans sold with limited recourse provisions.

In addition, the Company has transferred a portion of its originated commercial real estate loans to participating lenders. The amounts transferred have been accounted for as sales and are therefore not included in the Company's accompanying consolidated balance sheets. The Company and participating lenders share ratably in any gains or losses that may result from a borrower's lack of compliance with contractual terms of the loan. The Company continues to service the loans on behalf of the participating lenders and, as such, collects cash payments from the borrowers, remits payments (net of servicing fees) to participating lenders and disburses required escrow funds to relevant parties. At December 31, 2022 and 2021, the Company was servicing commercial loans for participants aggregating \$42,261,000 and \$29,697,000, respectively.

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

6. PREMISES AND EQUIPMENT

The major components of premises and equipment, net of accumulated depreciation and amortization, follows:

	December 31,	
	2022	2021
	(In thousands)	
Land	\$ 4,663	\$ 4,663
Buildings	21,333	19,155
Leasehold improvements	2,794	2,558
Equipment	12,300	11,587
	41,090	37,963
Less accumulated depreciation and amortization	(21,584)	(20,433)
	\$ 19,506	\$ 17,530

Depreciation and amortization expense for the years ended December 31, 2022 and 2021 amounted to \$1,731,000 and \$1,449,000 respectively.

7. LEASES

We have operating leases for branch locations, loan production offices and corporate office parking lot. These leases have remaining lease terms of two years to ten years and certain of these leases have options to extend the lease for up to five years. None of the options to extend have been included in the lease term as it was determined that it was not reasonably certain that we will exercise the option. The Company does not have any material short-term leases.

Lease expense for the years ended December 31, 2022 and 2021 is \$527,000 and \$534,000, respectively.

Supplemental cash flow and other information related to leases as of and for the year ended December 31, 2022, is as follows, (dollars in thousands):

Cash paid for amounts included in the measurement of operating lease liabilities:

Operating cash flows from operating leases	\$ 580
Weighted Average Remaining Lease Term (in years)	3.68
Weighted Average Discount Rate	4.37 %

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

Maturities of lease liabilities are as follows:

<u>Years Ending</u> <u>December 31,</u>	<u>Amount</u> (In thousands)
2023	\$ 598
2024	413
2025	268
2026	180
2027	<u>30</u>
Total lease payments	1,489
Less imputed interest	<u>(95)</u>
Total lease liability	<u><u>\$ 1,394</u></u>

8. DEPOSITS

Deposit balances consist of the following:

	<u>December 31,</u>	
	<u>2022</u>	<u>2021</u>
	(In thousands)	
NOW and demand	\$ 373,281	\$ 385,779
Money market deposits	205,763	207,096
Savings	<u>277,414</u>	<u>292,527</u>
Total non-certificate accounts	<u>856,458</u>	<u>885,402</u>
Term certificates of \$250,000 or more	159,936	118,436
Term certificates less than \$250,000	<u>302,741</u>	<u>218,352</u>
Total certificate accounts	<u>462,677</u>	<u>336,788</u>
Total deposits	<u><u>\$ 1,319,135</u></u>	<u><u>\$ 1,222,190</u></u>

At December 31, 2022 and 2021, included in certificates of deposit are brokered certificates of deposit amounting to \$93,578,000 with a weighted-average rate of 3.00% and \$41,944,000 with a weighted-average rate of 0.70%, respectively.

Total FHLB advances	\$120,091	1.07 %	\$ 34,460	1.32 %

BankFive, MHC and Subsidiary

Notes to Consolidated Financial Statements

Years Ended December 31, 2022 and 2021

At December 31, 2022 and 2021, included in FHLB advances is \$10,091,000 and \$9,460,000 respectively, under the FHLB Jobs for New England program, which have an interest rates of 0%. The FHLB Jobs for New England program provide below market-rate financing for small business loans that create or preserve jobs, expand woman-, minority-, or veteran-owned businesses, or otherwise stimulate the economy in New England communities.

The Company also has a \$1,000,000 available line-of-credit with the FHLB at an interest rate that adjusts daily. There were no advances on this line at December 31, 2022 or 2021. Advances from the FHLB are secured by a blanket lien on qualified collateral defined principally as a percentage of the carrying value of first mortgage loans on owner-occupied residential and commercial property and investment securities. At December 31, 2022, securities with a fair value of \$97,502,000 and an amortized cost of \$118,102,000 were pledged to secure such borrowings. There were no securities pledged at December 31, 2021.

Federal Reserve Bank PPPLF Advances

During 2021 and 2020, in order to fund a portion of the Company's PPP loan originations, the Company borrowed \$30,102,000 and \$18,128,000, respectively, from the Federal Reserve Bank's PPPLF, which carries a rate of 0.35% fixed for the term of the corresponding PPP loans. The Company pledged eligible PPP loans as collateral for the borrowings. As loans are forgiven or paid down, funds are remitted to the Federal Reserve to pay back the advance. As of December 31, 2022 and 2021, the Company had \$181,000 and \$4,369,000 outstanding under this agreement, respectively.

Federal Reserve Bank

The Company also has an agreement with the Federal Reserve Bank of Boston to borrow under the discount window. At December 31, 2022 and 2021, securities with a fair value of \$72,757,000 and \$8,374,000, respectively, and an amortized cost of \$94,416,000 and \$8,350,000, respectively, were pledged to secure such borrowings. At December 31, 2022 and 2021, there were no amounts outstanding under this agreement.

Other Lines of Credit

The Company has \$266,000,000 and \$106,000,000 of unsecured lines-of-credit with correspondent banks at December 31, 2022 and 2021, respectively. There were no amounts outstanding under these lines-of-credit at December 31, 2022 and 2021.

Subordinated Debt

On August 13, 2021, the Company issued \$25.0 million of 3.50% fixed-to-floating subordinated notes due August 13, 2031. The Company is obligated to pay 3.50% interest semiannually between August 2021 and August 2025. Subsequently, the Company is obligated to pay three-month term Secured

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

Overnight Financing Rate (SOFR) plus 2.86% quarterly until the notes mature in August 2031. Issuance costs were \$678,000 and have been netted against subordinated debt on the Balance Sheet. These costs are being amortized over 10 years. Total amortization expense for the year end December 31, 2022 and December 31, 2021 was \$67,000 and \$28,000 respectively.

10. INCOME TAXES

The components of the income tax provision are as follows:

	Years Ended December 31,	
	2022	2021
	(In thousands)	
Current tax provision:		
Federal	\$ 2,326	\$ 2,129
State	1,123	806
Total current tax provision	3,449	2,935
Deferred tax provision (benefit):		
Federal	378	(5)
State	(166)	(26)
Change in valuation reserve	-	(16)
Total deferred tax provision (benefit)	212	(47)
Total tax provision	\$ 3,661	\$ 2,888

The reasons for the differences between the statutory federal income tax provision and the actual income tax provision are summarized as follows:

	Years Ended December 31,	
	2022	2021
	(In thousands)	
Statutory federal tax provision at 21%	\$ 3,177	\$ 3,153
Increase (decrease) resulting from:		
State taxes, net of federal tax benefit	756	616
Change in valuation reserve	-	(16)
Bank-owned life insurance	(68)	(621)
Tax-exempt income	(227)	(221)
Other, net	23	(23)
Total tax provision	\$ 3,661	\$ 2,888
Effective tax rates	24.2%	19.2%

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

The tax effects of each items that gives rise to deferred taxes are as follows:

	December 31,	
	2022	2021
	(In thousands)	
Net unrealized loss on securities available for sale	\$ 12,563	\$ 1,160
Investments in limited partnerships	(802)	(793)
Depreciation and amortization	(799)	(194)
Allowance for loan losses	2,862	2,318
Employee benefit plans	1,030	909
Net unrealized defined benefit pension plan gains/(losses)	(251)	1,422
Net unrealized gain/(loss) on derivatives used for cash flow hed	(406)	-
Mortgage servicing rights	(618)	(751)
Charitable contribution carryover	200	-
Deferred income	(881)	(670)
Other, net	(125)	260
Net deferred tax asset	\$ 12,773	\$ 3,661

The gross deferred tax assets are \$17,340,000 and \$6,816,000 at December 31, 2022 and 2021, respectively.

The charitable contribution carryover represents federal and state contribution limitations that expire on December 31, 2027.

A summary of the change in the net deferred tax asset is as follows:

	Years Ended December 31,	
	2022	2021
	(In thousands)	
Balance at beginning of year	\$ 3,661	\$ 2,334
Deferred tax impact of other comprehensive income (loss)	9,324	1,280
Deferred tax (benefit) provision	(212)	47
Balance at end of year	\$ 12,773	\$ 3,661

The federal income tax reserve for loan losses at the Company's base year is \$3,270,000. If any portion

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

of the reserve is used for purposes other than to absorb loan losses, approximately 150% of the amount actually used (limited to the amount of the reserve) would be subject to taxation in the year in which used. As the Company intends to use the reserve to absorb only loan losses, a deferred tax liability of \$919,000 has not been provided.

The Company's income tax returns are subject to review and examination by federal and state taxing authorities. The Company is currently open to audit under the applicable statutes of limitations by the Internal Revenue Service for the years ended December 31, 2019 through 2022. The 2022 income tax returns have not been filed. The years open to examination by state taxing authorities vary by jurisdiction; no years prior to 2019 are open.

11. OFF BALANCE SHEET ACTIVITIES

Loan Commitments

The Company is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit. The instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the consolidated balance sheets.

The Company's exposure to credit loss is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments.

The following financial instruments were outstanding whose contract amounts represent credit risk:

	December 31,	
	2022	2021
	(In thousands)	
Commitments to grant loans	\$ 28,137	\$ 71,558
Unadvanced funds on equity lines-of-credit	81,576	69,705
Unadvanced funds on other lines-of-credit	107,382	103,169
Unadvanced funds on construction loans	41,598	21,738
Performance standby letters of credit	2,110	1,652

Commitments to extend credit are agreements to lend to a customer provided there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. The commitments for lines-of-credit may expire without being drawn upon. Therefore, the total commitment amounts do not necessarily represent future cash requirements. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the borrower.

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

Unadvanced funds on other lines-of-credit consist of unfunded commitments under commercial lines-of-credit, revolving credit lines and overdraft protection agreements and are commitments for possible future extensions of credit to existing customers. These lines-of-credit usually do not contain a specified maturity date and may not be drawn upon to the total extent to which the Company is committed.

Standby letters-of-credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. Those letters-of-credit are primarily issued to support public and private borrowing arrangements. Essentially all letters of credit issued have expiration dates within one year. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers.

12. ON BALANCE SHEET DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

Derivatives Designated as Hedging Instruments

The Company generally applies hedge accounting to its derivatives used for interest rate risk management purposes. Hedge accounting is permitted only if specific criteria are met, including a requirement that a highly effective relationship exists between the derivative instrument and the hedged item, both at inception of the hedge and on an ongoing basis. For a cash flow hedge, the gain or loss on the derivative is reported in other comprehensive income and is reclassified into earnings in the same periods during which the hedged transaction affects earnings.

Cash Flow Hedges

In 2022, the Company has entered into interest rate swap agreements which are designated as cash flow hedges. The Company has entered into pay-fixed/receive variable swaps which effectively convert a portion of its variable rate FHLB borrowings to a fixed rate. The Company expects the hedges to remain effective during the remaining terms of the swap agreements.

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

Information about the interest rate swap agreements used to hedge short-term FHLB borrowings at December 31, 2022, follows:

	2022
	(In thousands)
Notional amount	\$ 175,000
Weighted-average pay rate	3.44 %
Weighted-average receive rate	3.65 %
Weighted-average maturity in years	6.1
Estimated fair value of (liability) asset	1541

The effects of cash flow hedge accounting on accumulated other comprehensive income/loss for the year ended December 31, 2022 are as follows:

	Amount of Gain Recognized in OCI on Derivative	Location of Gain Reclassified from OCI into Income (in thousands)	Amount of Gain Reclassified from OCI into Income
Interest rate contracts	\$ 1,038	\$ -	\$ -

Derivatives Not Designated as Hedging Instruments

Interest Rate Swaps Related to Commercial Lending Transactions

The Company is party to interest rate swap transactions that are not designated as hedging instruments. These transactions relate to interest rate swaps that the Company has entered into with commercial lending customers to effectively convert their loans from a variable rate to a fixed rate.

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

Information about interest rate swaps related to commercial lending transactions is as follows as of December 31, 2022 and 2021:

	Derivative Assets			Derivative Liabilities		
	Notional Amount	Balance Sheet Location	Fair Value	Notional Amount	Balance Sheet Location	Fair Value
As of December 31, 2022			(in thousands)			
Interest rate swap agreements	\$ 25,968	Other Assets	\$ 3,706	\$ 25,968	Other Liabilities	\$ 3,706
As of December 31, 2021						
Interest rate swap agreements	\$ 26,813	Other Assets	\$ 728	\$ 26,813	Other Liabilities	\$ 728

Risk Participation Agreements

The Company has risk participation agreements that obligate the Company to make payments under these agreements if the customers default on their obligation to perform under derivative swap contracts with a third party. The following a summary of risk participations agreements sold at December 31, 2022 and 2021.

	December 31, 2022	December 31, 2021
	(In thousands)	
Notional amount	\$ 683	\$ 720
Unrealized loss	\$ -	\$ 1

Based on the internal risk rating process of underlying third parties to swap contacts, the risk participation agreement were all pass rated at December 31, 2022 and 2021, which indicates the expected risk of default is currently low. Assuming all of the underlying swap counterparties defaulted at December 31, 2022 and 2021, the exposure from risk participation agreements would be nominal based on the Company's obligation for the fair value of the underlying swaps.

As of December 31, 2022 and 2021, the Company has received cash collateral from derivative counterparties totaling \$5,210,000 and \$530,000, respectively. The Company may need to post additional collateral or may receive collateral in return in the future in proportion to potential changes in the overall unrealized gain/loss position. Cash collateral pledged is restricted as to use.

To reduce credit risk related to the use of derivative instruments, the Company might deem it necessary to obtain collateral. The amount and nature of the collateral obtained is based on the Company's credit evaluation of the customer.

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

Derivative Loan Commitments

Mortgage loan commitments are referred to as derivative loan commitments if the loan that will result from exercise of the commitment will be held for sale upon funding. The Company entered into commitments to fund residential mortgage loans at specified times in the future, with the intention that these loans will subsequently be sold in the secondary market. A mortgage loan commitment binds the Company to lend funds to a potential borrower at a specified interest rate and within a specified period of time. Outstanding derivative loan commitments expose the Company to the risk that the price of the loans arising from exercise of the loan commitment might decline from inception of the rate lock to funding of the loan due to increases in mortgage interest rates. If interest rates increase, the value of these loan commitments decreases. Conversely, if interest rates decrease, the value of these loan commitments increases. The notional amount of rate-locked mortgage loan commitments was \$17,374,000 and \$53,986,000 at December 31, 2022 and 2021, respectively. The fair value of such commitments at December 31, 2022 and 2021 was an asset of \$9,000 and \$262,000, respectively.

Forward Loan Sale Commitments

To protect against the price risk inherent in derivative loan commitments, the Company utilizes forward loan sale commitments to mitigate the risk of potential decreases in the values of loans held for sale and loans that would result from the exercise of the derivative loan commitments. With a mandatory delivery contract, the Company commits to deliver a certain principal amount of mortgage loans to an investor at a specified price on or before a specified date. If the Company fails to deliver the amount of mortgages necessary to fulfill the commitment by the specified date, it is obligated to pay a “pair-off” fee, based on then-current market prices, to the investor to compensate the investor for the shortfall. The notional amount of forward loan sale commitments was \$6,491,000 and \$11,234,000 as of December 31, 2022 and 2021, respectively. The fair value of such commitments was an asset of \$52,000 at December 31, 2022 and a liability of \$54,000 at December 31, 2021. With a best-efforts contract, the Company commits to deliver a loan at a specified price if the specific loan closes. The notional amount of best efforts forward loan sale commitments was \$1,390,000 and \$1,103,000 at December 31, 2022 and 2021, respectively. The fair value of these commitments was immaterial.

13. LEGAL CONTINGENCIES

Various legal claims arise from time to time in the normal course of business, which, in the opinion of management, will have no material effect on the Company’s consolidated financial position.

14. MINIMUM REGULATORY CAPITAL REQUIREMENTS

The Bank is subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company’s consolidated financial statements.

BankFive, MHC and Subsidiary

Notes to Consolidated Financial Statements

Years Ended December 31, 2022 and 2021

Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of their assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. The capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

Federal banking regulations require the Bank to maintain minimum amounts and ratios of total common equity Tier 1 capital, Tier 1 capital and total capital to risk weighted assets and Tier 1 capital to average assets as set forth in the following table. Additionally, community banking institutions must maintain a capital conservation buffer of common equity Tier 1 capital in an amount greater than 2.5% of total risk weighted assets to avoid being subject to limitations on capital distributions and discretionary bonuses.

For regulatory capital purposes, loans made under the PPP are risk-weighted at 0% in risk-based capital calculations. For the Tier 1 leverage ratio computation, PPP loans pledged to the PPPLF are excluded from total average assets. Any PPP loan that is not pledged to the PPPLF is included in total average assets for purposes of the Tier 1 leverage ratio calculation.

As of December 31, 2022, the most recent notification from the Federal Deposit Insurance Corporation categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Bank must maintain minimum total risk-based, common equity Tier 1 risk-based, Tier 1 risk-based, and Tier 1 leverage ratios as set forth in the following table. There are no conditions or events since that notification that management believes have changed the Bank's category.

The Bank's actual capital amounts and ratios and minimum capital requirements are presented in the following table.

	Actual		Minimum Required for Capital Adequacy Purposes		Minimum to be Considered "Well Capitalized" Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
(Dollars in thousands)						
<u>December 31, 2022:</u>

15. EMPLOYEE BENEFITS

Defined Benefit Pension Plan

The Company provides basic and supplemental pension benefits for eligible employees through the Savings Banks Employees Retirement Association (“SBERA”) Pension Plan. Each employee reaching the age of 21 and having completed at least 1,000 hours of service in the twelve-month period from date of hire, automatically becomes a participant in the retirement plan. All participants are fully vested after three years of service. During 2006, the Company amended the Plan to exclude employees hired on or after November 1, 2006, from participation in the Plan.

Effective July 1, 2022, the Plan sponsored by the Company was amended to convert from a traditional final average earnings plan design to a cash balance plan design. Benefits earned under the final average earnings plan design were frozen on June 30, 2022. Starting July 1, 2022, future benefits are earned under the cash balance plan design. Under the cash balance plan design, hypothetical account balances are established for each participant and pension benefits are generally stated as the lump sum amount in that hypothetical account. Contribution credits equal to a percentage of a participant’s annual compensation (if the participant works at least 1,000 hours during the year) and interest credits equal to the greater of the 30-Year Treasury rate for September preceding the current plan year or 3.5% (capped at 7%) are added to a participant’s account each year.

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

Information pertaining to the activity in the plan for the years ended December 31, 2022 and 2021 are as follows:

	2022	2021
	(In thousands)	
Change in benefit obligation:		
Benefit obligation at beginning of year	\$ 22,881	\$ 22,305
Service cost	642	532
Interest cost	825	763
Amendments	(3,117)	-
Actuarial loss (gain)	(6,458)	332
Benefits paid	(3,410)	(1,051)
Benefit obligation at end of year	11,363	22,881
Change in plan assets:		
Fair value of plan assets at beginning of year	19,886	18,793
Return on plan assets	(3,290)	2,144
Contributions	-	-
Benefits paid	(3,410)	(1,051)
Fair value of plan assets at end of year	13,186	19,886
Funded status and pension liability (asset) at end of year	\$ (1,823)	\$ 2,995
Accumulated benefit obligation at end of year	\$ 11,363	\$ 18,737

Actuarial gains related to the pension benefit obligation in 2022 were primarily a result of an increase in the discount rate, updated interest crediting rate, assumed salary and wage increase assumptions and lump sum conversion assumptions. See Note 1.

Actuarial losses related to the pension benefit obligation in 2021 were primarily a result of salary increases greater than the assumed salary scale, offset by an increase in the discount rate.

The assumptions used to determine the benefit obligation at December 31, 2022 and 2021 are as follows:

	2022	2021
Discount rate	6.25%	3.75%
Rate of compensation increase	3.00%	3.00%

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

The components of the net periodic pension cost for the years ended December 31, 2022 and 2021 are as follows:

	2022	2021
	(In thousands)	
Service cost	\$ 642	\$ 532
Interest cost	825	763
Expected return on plan assets	(1,201)	(1,463)
Amortization of prior service costs	(137)	
Amortization of net actuarial loss	422	496
Settlement loss	584	-
Net periodic pension cost	\$ 1,135	\$ 328

The service cost component of net periodic pension cost is included in salaries and employee benefits expense and the remaining components are included in other non-interest expense on the consolidated statements of net income.

The assumptions used to determine the net periodic pension cost for the years ended December 31, 2022 and 2021 are as follows:

	2022	2021
Discount rate	3.75%/5.25%	3.50%
Expected long-term rate of return on plan assets	7.00%	8.00%
Rate of compensation increase	3.00%	3.00%
Interest crediting rate	3.50%	N/A

The expected long term-rate of return is based on prevailing yields on high-quality fixed- income investments increased by a premium of 3% to 5% for equity investments.

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

The fair values of major categories of the Company's pension plan assets are summarized below:

	December 31, 2022			Total Fair Value
	Level 1	Level 2	Level 3	
	(In thousands)			
Collective funds	\$ 1,523	\$ -	\$ -	\$ 1,523
Equity securities	2,955	-	-	2,955
Mutual funds	1,799	-	-	1,799
Total investments measured in the fair value hierarchy	\$ 6,277	\$ -	\$ -	6,277
Investments measured at net asset value ⁽¹⁾				6,909
				\$ 13,186
	December 31, 2021			
	Level 1	Level 2	Level 3	Total Fair Value
	(In thousands)			
Collective funds	\$ 2,127	\$ -	\$ -	\$ 2,127
Equity securities	4,679	-	-	4,679
Mutual funds	2,813	-	-	2,813
Total investments measured in the fair value hierarchy	\$ 9,619	\$ -	\$ -	9,619
Investments measured at net asset value ⁽¹⁾				10,267
				\$ 19,886

⁽¹⁾ Certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. There are no unfunded commitments or redemption restrictions for these investments, which can be redeemed on a daily basis.

The plan assets measured at fair value in Level 1 are based on quoted market prices in an active exchange market. The plan assets measured at net asset value are based on the fair value of the underlying investments held by the fund less its liabilities.

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient.

	December 31,	
	2022	2021
	(In thousands)	
Collective funds by category:		
Equity	\$ 1,960	\$ 2,680
US debt securities	2,585	3,673

Multi-strategy	27	31
Hedge funds by category:		
Global opportunities	38	55
Private investment entities and/or separately managed accounts	164	244
	\$ 6,909	\$ 10,267

SBERA offers a common and collective trust as the underlying investment structure for pension plans participating in the Association. The target allocation mix for the common and collective trust portfolio calls for an equity-based investment deployment range from 49% to 63% of total portfolio assets. The remainder of the portfolio is allocated to fixed income from 28% to 42% and other investments including global asset allocation and hedge funds, used for risk management, from 3% to 15%.

The Trustees of SBERA, through the Investment Committee, select investment managers for the common and collective trust portfolio. A professional investment advisory firm is retained by the Investment Committee to provide allocation analysis, performance measurement and to assist with manager searches. The overall investment objective is to diversify equity investments across a spectrum of investment types to limit risk from large market swings.

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

Estimated future benefit payments, which reflect expected future service as appropriate, are as follows:

<u>Years Ending December 31,</u>	<u>Amount</u> (In thousands)
2023	\$ 857
2024	733
2025	908
2026	1,276
2027	1,174
2028-2032	6,808
Total	<u>\$ 11,756</u>

401(k) Plan

The Company maintains a 401(k) plan for the benefit of its employees. Each employee reaching the age of 21 and having completed at least 1,000 hours of service in one twelve-month period beginning with such employee's date of employment, or anniversary thereof, becomes eligible to be a participant in the Plan. The Plan provides for voluntary contributions by participating employees subject to certain limits based on federal tax laws. The Company makes a contribution equal to 3% of the employees' compensation. Effective November 1, 2006, the Plan was amended to add a discretionary matching contribution determined by the Company each plan year for employees hired on or after November 1, 2006, not to exceed 4% of the employees' compensation. All contributions are immediately 100% vested. The Company's total contribution for the years ended December 31, 2022 and 2021 amounted to \$959,000 and \$666,000, respectively.

Incentive Compensation Plan

Management and employees of the Company participate in an incentive compensation plan which is based on a percentage of the Company's return on assets and certain lending and deposit growth goals. The plan is subject to annual review by the Executive Committee of the Board of Trustees for continuation. Incentive compensation expense for the years ended December 31, 2022 and 2021 amounted to \$1,886,000 and \$1,678,000, respectively.

Supplemental Retirement Agreements

The Company has entered into supplemental employee retirement agreements with certain senior officers and Trustees of the Company to provide supplemental retirement benefits. The present value of the future benefits payable under these arrangements are being accrued from the commencement of the plans over the participants' remaining periods of service, taking into consideration vesting provisions in the agreements. The accrued liability for these agreements is reported in accrued expenses and other

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

liabilities on the consolidated balance sheets and amounted to \$1,268,000 and \$2,036,000 at December 31, 2022 and 2021, respectively. Expense relating to these agreements for the years ended December 31, 2022 and 2021 amounted to \$275,000 and \$285,000, respectively.

Endorsement Split-Dollar Life Insurance Arrangements

The Company is the sole owner of life insurance policies pertaining to certain of the Company's executives. The Company has entered into agreements with these executives whereby the Company has agreed to maintain a life insurance policy in effect during the executives' retirement which will pay to the executives' estates or beneficiaries a portion of the death benefit that the Company will receive as beneficiary of such policies. The Company recognized related income for these agreements of \$10,000 and \$169,000 for the year ended December 31, 2022 and 2021, respectively.

16. FAIR VALUES OF ASSETS AND LIABILITIES

Determination of Fair Value

The Company uses fair value measurements to record fair value adjustments to certain assets and liabilities. The fair value of an asset is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value is best determined based upon quoted market prices. However, in many instances, there are no quoted market prices for the Company's assets. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the asset.

The following methods and assumptions were used by the Company in estimating fair value disclosures.

Securities

All fair value measurements are obtained from a third-party pricing service and are not adjusted by management. The securities measured at fair value in Level 1 are based on quoted market prices in an active exchange market. Securities measured at fair value in Level 2 are based on pricing models that consider standard input factors such as observable market data, benchmark yields, interest rate volatilities, broker/dealer quotes, credit spreads and new issue data.

Interest Rate Swap Agreements

Interest rate swap agreements are stated at estimated fair value based on their notional amount, amortization, tenor, payment frequency, day count fraction, fixed and floating rates, and other factors. The present value of expected cash flow differences is calculated based on prevailing market and contractual swap rates. The valuation of interest rate swap agreements are reviewed on a frequent basis. These valuations are performed by an independent appraiser consistent with industry practice for the

BankFive, MHC and Subsidiary
Notes to Consolidated Financial Statements
Years Ended December 31, 2022 and 2021

valuation of derivatives.

Risk Participation Agreements

The fair value of risk participation agreements is based on the fair value of the interest rate swap agreements and the probability of default. Significant increases (decreases) in probability of default would result in a significantly higher (lower) fair value measurement.

Derivatives Loan Commitments and Forward loan sale commitments

Fair values for derivatives loan commitments are based on prices currently charged to enter into similar agreements, taking into account the probability that the commitment will be exercised.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

Assets and liabilities measured at fair value on a recurring basis are summarized below:

	December 31, 2022			Total Fair Value
	Level 1	Level 2	Level 3	
	(In thousands)

Assets Measured at Fair Value on a Non-recurring Basis

The Company may also be required, from time to time, to measure certain other assets at fair value on a nonrecurring basis in accordance with generally accepted accounting principles. These adjustments to fair value usually result from application of lower-of- cost-or-market accounting or write-downs of individual assets. There are no assets or liabilities measured at fair value on a non-recurring basis at December 31, 2022 or 2021.

17. SUBSEQUENT EVENTS

Management has evaluated subsequent events through March 23, 2022, which is the date the financial statements were available to be issued. There were no subsequent events that require adjustment to or disclosure in the consolidated financial statements.

Form FR Y-6
BankFive, MHC
Fall River, MA 02720
Fiscal Year Ending December 31, 2022
Organizational Chart

Results: A list of branches for your holding company: **BANKFIVE, MHC (3320978) of FALL RIVER, MA.**
 The data are as of 12/31/2022. Data reflects information that was received and processed through 12/31/2022.

Reconciliation and Verification Steps

1. In the **Data Action** column of each branch row, enter one or more of the actions specified below
2. If required, enter the date in the **Effective Date** column

Actions

- OK:** If the branch information is correct, enter 'OK' in the **Data Action** column.
- Change:** If the branch information is incorrect or incomplete, revise the data, enter 'Change' in the **Data Action** column and the date when this information first became valid in the **Effective Date** column.
- Close:** If a branch listed was sold or closed, enter 'Close' in the **Data Action** column and the sale or closure date in the **Effective Date** column.
- Delete:** If a branch listed was never owned by this depository institution, enter 'Delete' in the **Data Action** column.
- Add:** If a reportable branch is missing, insert a row, add the branch data, and enter 'Add' in the **Data Action** column and the opening or acquisition date in the **Effective Date** column.

If printing this list, you may need to adjust your page setup in MS Excel. Try using landscape orientation, page scaling, and/or legal sized paper.

Submission Procedure

When you are finished, send a saved copy to your FRB contact. See the detailed instructions on this site for more information.
 If you are e-mailing this to your FRB contact, put your institution name, city and state in the subject line of the e-mail.

Note:

To satisfy the **FR Y-10 reporting requirements**, you must also submit FR Y-10 Domestic Branch Schedules for each branch with a **Data Action** of **Change, Close, Delete, or Add**.
 The FR Y-10 report may be submitted in a hardcopy format or via the FR Y-10 Online application - <https://y10online.federalreserve.gov>.
